ВЛИЯНИЕ СТИЛЯ РОДИТЕЛЬСКОГО ВОСПИТАНИЯ НА ЛИЧНОСТНОЕ РАЗВИТИЕ РЕБЕНКА: НЕКОТОРЫЕ АСПЕКТЫ ВЗАИМОДЕЙСТВИЯ СЕМЬИ И ШКОЛЫ

Аннотация. Актуальность работы определяется множеством проблем, возникающих у родителей в процессе воспитания ребенка и взаимодействия семьи с образовательным учреждением. Педагогический опыт работы авторов показывает, что ошибки семейного воспитания и контакта со школой связаны с тем, что родители не всегда учитывают индивидуальность ребенка, ориентируясь больше на свои потребности и отталкиваются от собственных личностных особенностей. Раскрыты типы родительских стилей воспитания детей, представлены рекомендации по усилению влияния семейного воспитания на развитие детей.

Одной из значимых детерминант развития личности ребенка является семья. Вместе с тем отношение родителей к ребенку оказывает доминирующее влияние на формирование его психологические особенности и поведение. Личность ребенка формируется под влиянием многих факторов, но уровень нравственной культуры его родителей, их жизненные планы и устремления, существующие семейные традиции имеют решающее значение в развитии его личности, так как именно в семье ребенок приобретает убеждения, общественно одобряемые формы поведения, необходимые для нормальной жизни в социуме.

INFLUENCE OF THE STYLE OF UPBRINGING OF THE PARENT ON THE CHILD'S PERSONAL DEVELOPMENT: SOME ASPECTS OF THE INTERACTION OF THE FAMILY AND THE SCHOOL

Summary. The relevance of the work is determined by the multitude of problems that parents face in the upbringing process of a child and the interaction of the family with an educational institution. The pedagogical experience of the authors shows that the mistakes of family upbringing and contact with the school are related to the fact that parents do not always take into account the individuality of the child, focusing more on their needs and relying on their own personal characteristics. The types of parental styles of children's upbringing are revealed and recommendations for strengthening the influence of family upbringing on the development of children are presented.
